

HIGH COUNTRY ARCHERY

1989
CATALOG

When that trophy of a life time stands before you. When countless hours of practice and the aching efforts of a hundred hunts are a memory.

When it all comes down to this one monumental moment in time, this is the moment High Country was born.

"Experience the Excitement"

HIGH COUNTRY "SUPER GRIPPER" BOW QUIVER ▽

This is a rugged, slim profile bow quiver made to adjust to all arrow lengths and fit all shaft sizes down to 1713.

With adjustability features that enable you to center quiver on bow and also detach for easier packing, the "Super Gripper" can be fit to your style.

The "Super Gripper" mounts on the side pivot anchors and feature a soft rubber mounting system that reduces vibration and noise. Will hold up to 8 arrows.

Available in Green, Grey and Snow Camo and Solid Black.

Limb bolt pivot. These steel limb bolt cylinders not only pivot to properly center the limb and even the load, but also provide greater strength while eliminating the thread damage that occurs when limb bolts are screwed directly into soft magnesium risers.

HIGH COUNTRY HUNTERS

When it all comes down to that one, hard earned shot you must have complete confidence in your equipment. Your bow is the most vital link between you and success.

High Country Hunters were designed to be a part of you, an extension of your arm. They are light, fast, forgiving. They are accurate and dependable so you can be consistent.

High Country Hunters are all these important things but they alone weren't enough. High Country Hunters are also probably the most enjoyable bows you'll ever shoot. Arrow after arrow, shot after shot. Everything feels good. The handle fits your hand, the limbs are designed to store energy evenly for a smooth pull. The 65% "Impulse" E-wheels roll over like silk so you can shoot a heavier weight but hold what is comfortable for you.

Sure, it all comes down to that one shot but with High Country you'll really enjoy those thousands of other shots that are a part of bowhunting.

SNIPER

Axle/Axle	42"
Draw Weights	35 to 85 (15 lb increments)

Eccentric	65% - 2" or 3" Adjustable
Limbs	Gordon 625' Glass

"Wow! I thought my old bow was smooth. The Trophy Hunter is like Teflon."

SNIPER ◁

A super quiet hunter that features our new "Fast Flight" System that eliminates cables and teardrops. Made of continuous super tough "Fast Flight" string, the Sniper is fast, quiet and smooth with less recoil. Also available in the longer XL Model.

TROPHY HUNTER ◁

A proven winner, the Trophy Hunter combines smooth power with dependability. If you're out to tackle that trophy of your life, take it with the Trophy Hunter now available in the longer XL version.

TROPHY HUNTER

Axle/Axle	42"
Draw Weights	25 to 85 (15 lb increments)
Draw Lengths	24 to 32 (3" increments)
Colors	TreBark, Mossy Oak Hill Country, Green & Snow Camo & Solid Black
Grips	All
System	Standard String/Cable
Eccentric	65% - 3" Adjustable
Limbs	Gordon "625" Glass

TROPHY HUNTER XL

Axle/Axle	44"
Draw Weights	45 to 85 (15 lb increments)
Draw Lengths	28 to 34 (3" increments)
Colors	TreBark, Mossy Oak Hill Country, Green & Snow Camo & Solid Black
Grips	All
System	Standard String/Cable
Eccentric	65% - 3" Adjustable
Limbs	Gordon "625" Glass

Gordon "625" fiberglass limbs are the next generation of limb material. This new, tougher material provides an optimum bond with the epoxy matrix for a more durable, dependable, energy storing limb. The result is a better looking, longer life limb with greater performance.

FAVORITE CAMOS

TreBark®, Mossy Oak® Hill Country, Green, Snow and Solid Black, your choice. All at no extra charge.

CENTER SHOT RISER

To aid in tuning your bow and for superior arrow clearance and flight, all High Country bows feature the Center Shot Riser. By offsetting the sight window you are assured of simpler set up and better clearance for broadheads and fletching. The result is a cleaner, more accurate shot.

All High Country bows feature a strong, lightweight aluminum handle drilled and tapped to accept AMO standard accessories in right and left hand. (Except Avenger)

ROYAL HUNTER ▽

The beauty, grace and power of our "FAST FLEX" re-curve limbs make the Royal Hunter a top choice for bowhunter or field archer.

ROYAL HUNTER

Axle/Axle	44"
Draw Weights	35 to 75 (15 lb increments)
Draw Lengths	26 to 31 (3" increments)
Colors	TreBark, Mossy Oak Hill Country, Green & Snow Camo & Solid Black
Grips	All
System	String/Cable
Eccentric	65% - 3" Adjustable
Limbs	"Fast Flex" Recurve

"I've shot a lot of good bows - my High Country is the nicest to shoot."

TOP FLIGHT ▷

This is truly a "special" bow that combines our top performing "FAST FLEX" re-curve limbs and the new "Fast Flight" string system that eliminates cables. Smooth, powerful, quiet, it's all here.

TOP FLIGHT

Axle/Axle	44"
Draw Weights	35 to 75 (15 lb increments)
Draw Lengths	28 to 31 (3" increments)
Colors	TreBark, Mossy Oak Hill Country, Green & Snow Camo & Solid Black
Grips	All
System	"Fast Flight" no cable
Eccentric	65% - 3" Adjustable
Limbs	"Fast Flex" Recurve

"FAST FLIGHT" SYSTEM

This new development in string technology has resulted in a high strength material comparable to standard cable. The "FAST FLIGHT" System found on High Country bows eliminates the aluminum cable and tear drop system with a continuous string for greater arrow speed and higher performance, less weight, longer wear, lower maintenance and simpler service. The "FAST FLIGHT" System is just one more way High Country is making archery a more enjoyable sport.

AVENGER ▽

Our shortest bow offers a wide set of choices in lengths and weights to make it a perfect bow for women and children while still being a great, maneuverable hunting bow for Dad.

AVENGER

Axle/Axle	40" (Right hand only)
Draw Weights	25 to 50 (10 lb increments)
Draw Lengths	21 to 32 (3" increments)
Colors	TreBark, Mossy Oak Hill Country, Green & Snow Camo & Solid Black
Eccentric Limbs	65% - 3" Adjustable
Limbs	Gordon 625 Glass

65% "IMPULSE" WHEELS

At High Country we believe in hunting with the heaviest bow you can shoot well. We also believe a bow should be smooth as well as fast. The answer was our 65% let-off "Impulse" Wheels. By relaxing bow weight by 65% at draw, you have the pleasure of being able to hold on target longer for a more accurate, more comfortable shooting experience. At release, the feel is crisp power and an incredibly fast, flat shooting arrow.

New "Fast Flight" 3" Adjustable Wheel

Standard 3" Adjustable Wheel

Hunter Supreme w/Plunger

T.M. Hunter

Cavalier Super-Flyte

Standard -- no rest -- (Shown in chrome)

HIGH COUNTRY "OVERDRAW"

Increase arrow speed by reducing mass weight for a flatter trajectory with adjustable "overdraws". Allows up to 5 1/2" shorter arrows. Available in standard (2 1/2" to 3" shorter arrow) and extra long (4" to 5 1/2" shorter arrow) both in black and chrome. Right or Left hand. With these super arrow rests.

"FAST FLEX" Re-curve Limbs. A special re-curve limb that laminates "Bow-Tuff" and "Core-Tuff" with "Power-Tuff" wedges for a smoother, more dependable, high performance limb. The more you shoot, the more you'll like "FAST FLEX" performance.

NATIONAL CHAMPION ◁

Another proven winner with consistent accuracy, the National Champion puts the fun part back into shooting with its smooth, natural performance.

NATIONAL CHAMPION

Axis/Axis	42"
Draw Weights	25 to 85 (15 lb increments)
Draw Lengths	24 to 32 (3" increments)
Colors	Metal Flake — Red, Blue, Purple, Brown, Teal, Orange, Pearl — Black, White, Lavender, Green, Pink
Grips	All wood
System	Cable/String
Eccentric Limbs	65% — 3" Adjustable
	Gordon 425 Glass

HIGH COUNTRY CHAMPIONS

Every bow must feel good to shoot. It must feel good in your hand and during the draw and release. It must be comfortable, target after target, arrow after arrow.

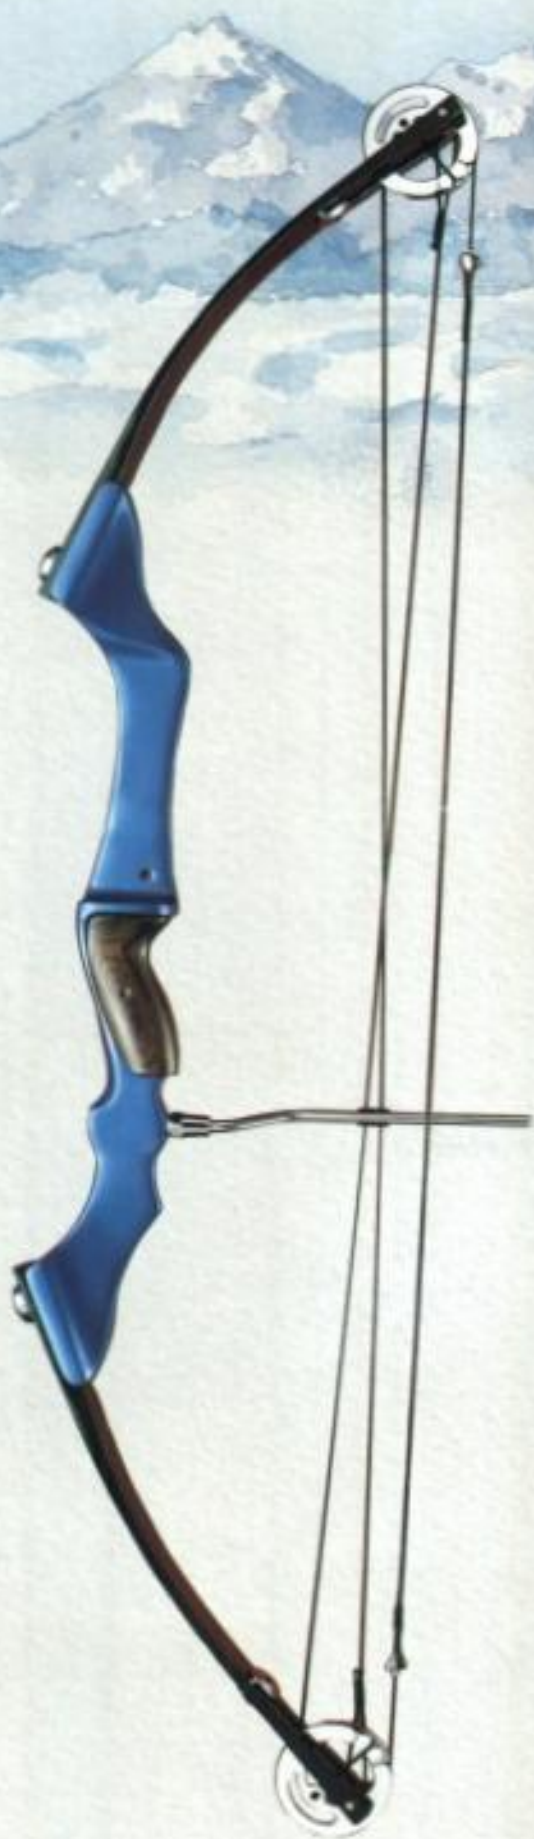

A great competition bow must be easy to tune, smooth, forgiving and accurate. The aiming process must be second nature to you and the bow must be a part of that, not just an accessory you have to be aware of.

A great competition bow must be able to combine all these things, then it must add dependability, good looks and probably most important of all, it should be fun to shoot.

The High Country Champion line-up. It's everything you want in a bow along with a huge slice of fun.

FANTASTIC COLORS

Metal Flake — Red, Blue, Purple, Brown, Teal, Orange (Below)
Pearl — Black, White, Lavender, Green, Pink (Shown on opposite page)

TOP GUN ▷

It takes a lot to be Top Gun, but with its "Fast Flight" System, "625" limbs, Center Shot Riser and 65% "Impulse" wheels, it won't take long before you are in the "Winners" Circle.

"After five years of competing I changed to High Country and today brought home my first 'winner' trophy."

TOP GUN

Axle/Axle	44"
Draw Weights	45 to 65 (15 lb increments)
Draw Lengths	26 to 32 (3" increments)
Colors	Metal Flake - Red, Blue, Purple, Brown, Teal, Orange, Pearl - Black, White, Lavender, Green, Pink
Grips	All wood
System	"Fast Flight" no cable
Eccentric	65% - 2" or 3" Adjustable
Limbs	Gordon "625" Glass

CONQUEST ◁

The grace and power of "FAST FLEX" laminated limbs help make this a smooth shooting tack driver so you can spend more time collecting trophies. (Shown with Special order - Ivory Scrimshaw grip.)

CONQUEST

Limbs	"Fast Flex" Recurve

WOOD GRIPS

Enhance your High Country bow with one of these beautiful hardwood grips. Right or left hand. Hi or low. Lamiwood, Rosewood, Ebony, Walnut, or Cocobola. (Except Avenger)

TRIPLE CROWN

High Country Shooters have literally blown the competition away at the prestigious I.B.O. Triple Crown Shoot. In only 3 years High Country bows have captured more top trophies than any other manufacturer. How is it possible for an upstart company like us to take on the giants and so quickly and so thoroughly dominate an event? High Country bows were designed for shooters. They were designed to bring out the best in every shooter and help make every shot the most accurate possible. Here company President Spencer Land poses with some of the 1988 winners.

Advisor Wayne Carlton, President of Wayne Carlton Calls, Montrose, CO, dropped this new world record Canadian Moose with his Trophy Hunter in B.C.

Advisor Larry Hoff of Boise, ID showed the smooth power of his Trophy Hunter by dropping this huge Australian Water Buffalo in the land down under.

Advisor Stan Chiras of Story, WY adds another trophy, the Eastern Turkey, to his rapidly approaching Grand Slam.

Whether you hunt, shoot competitively or just spend time at the range, you should be looking for a bow that is a pleasure to shoot. While every bow is capable of launching an arrow, our desire was to make doing so an enjoyable experience.

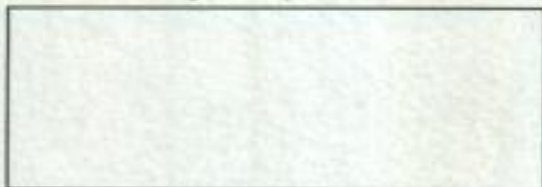

We invite you to visit your local archery pro-shop and try High Country. We think you too will agree no bow feels as good to shoot. And isn't that what archery fun is all about?
