TEAM: Alvin Sluder, Burley Hall and Randy Ulmer

Lifetime (Limited) Warranty™

High Country Archery bows carry a Limited Lifetime Warranty™ that covers the riser and eccentrics indefinitely against defects in materials and workmanship. A limited warranty will apply to limbs being replaced for a period of three (3) years, at no charge. A 50% charge of manufacturer's suggested retail cost will apply after three (3) years.

High Country reserves the right in replacement by a comparable bow in some cases. A charge of 50% of suggested retail price will apply. Items not covered by warranty are strings, cables, grips, cableguards and any cosmetic appearance caused by normal use and wear.

Warranties apply to the original owner only and warranty cards must be completed and returned to the manufacturer within 10 days of purchase. A warranty will be void if damage is caused by misuse or unauthorized modifications. Bows with draw weights set and shot over 80 pounds are not covered. Unless they are written here, there are no other warranties, whether express or implied, binding High Country Archery.

High Country Archery reserves the right to upgrade products at a pro-rated cost to meet current standards when outdated parts are no longer available.

Bows returned for warranty repairs will be inspected for worn strings and cable systems. If necessary, strings and cables will be replaced at the manufacturer's discretion at a cost of \$20.00 for all metal cable bows and \$30.00 for Fast Flight harness systems.

For a warranty return authorization number or information about High Country Archery Warranty repairs, please call the High Country Warranty Repair Division at (615) 949-5000.
